TEMPLATE — FILL IN AND REBUILD

This file is a template. Write the release in plain Markdown, run `php press/build.php`, and the DOCX and PDF are generated automatically and the links on the project page update themselves.

The first paragraph is the standfirst: what is happening, where, when, and why it matters to a reader who has never heard of the project.

Heading for the next part

Body text. **Bold** and *italic* work, as do links.

A quote from someone who was there, with their name and role underneath.

About the project

- **What:** ...
- **Venue:** ...
- **When:** ...
- **Try New Things' role:** ...

About Try New Things

Try New Things is a studio for new ideas. We work with image, storytelling and technology to turn vague ideas into meaningful experiences.
